Big Red Wipes

Powerful cleaning wipes in a convenient dispenser.

A major advance in cleaning and absorbing technology creating a super strong wipe that can be reused time and time again

What are Big Red Wipes?

Big Red Wipes are heavy duty wipes with unbeatable cleaning power. Their cloth-like cellulose form means they are exceptionally strong and not only do they clean heavy duty mess like grease and oil but also contaminants and bacteria to keep work surfaces hygienic. Big Red Wipes come in a convenient big grip dispenser which is ideal for indoor or outdoor use and on board transportation such as HGV and tankers.

How do Big Red Wipes work?

Big Red Wipes are made from DRIC (Double re-creped cellulous) which is a highly absorbent cloth-like cellulose. This makes Big Red Wipes not only strong but also reusable, simply wring out and reuse if needed. These super absorbent, reusable wipes are easy to transport and kept protected from the elements by the convenient big grip container.

Product Information

Big Grip dispenser contains 140 (25.1cm x 33.2) wipes
Always ensure that precautionary measures found in the MSDOS sheet for Big Red Wipes are read and followed before use.
